### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art is not seen to teach or fairly suggest methods of treating an HCV infection comprising administering the claimed 2'-deoxy-2'-fluoro-2'-methyl (or tri-fluoromethyl) nucleosides. It is noted that a terminal disclaimer has been filed over copending application 11/005,445, which has been approved. Likewise, the compound claimed is seen to be supported in provisional application 60/392,350, as set forth by formula IV contained therein on at least pages 57-58. The closest art is seen to be US 5,246,924, which teaches treating HBV with 2'-fluoro pyrimidine compounds, which is not seen to anticipate or render obvious the instant methods. Applicants amendments to the claims are seen to overcome the 112 2<sup>nd</sup> paragraph rejections set forth in the 11/26/2008 Office Action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
